

# CAREER STARTS WITH CARE.

Beiersdorf

Eucerin

Hansaplast

LA PRAIRIE

CHANTECAILLE

## ENTERPRISE ARCHITECT (ALL GENDERS)

At Beiersdorf, we want to help people feel good about their skin – and our commitment goes far beyond caring for skin. For 140 years, we have developed innovative skin and body care products for well-known brands such as NIVEA, Eucerin, La Prairie, Hansaplast, and Labello. We act according to our purpose, WE CARE BEYOND SKIN, and take responsibility for our consumers, our employees, the environment and society.

Behind every brand, every product and every accomplishment are our more than 20,000 employees. It is for them that we live a culture of inclusion, respect and trust that is strongly aligned with our values CARE, COURAGE, SIMPLICITY and TRUST. We embrace diversity by valuing the uniqueness of each individual and being committed to equal opportunities for all.

### YOUR TASKS

- As a source of inspiration and driver, you are responsible for the further development and modernization of the entire enterprise architecture as part of the corporate strategy and contribute to the future success of the company by developing solution- and future-oriented architecture concepts.
- You evaluate the architecture conformity of solution strategies and identify weaknesses to ensure an efficient IT infrastructure that enables smooth business processes.
- You ensure GDPR compliance for our application & infrastructure landscape as trusted business partner for our data protection managers and act as a promoter for a culture of GDPR awareness within our organization.
- Furthermore, you are responsible to successfully implement our CIO dashboard including all key metrics for our Beiersdorf IT organization.
- You determine overarching synergies and drive the implementation of a “One Architecture DNA” within the organization to empower our architecture community.
- You are passionate to stay up to date by continuously analyzing technology, industry, and market trends.
- You determine their potential impact on the enterprise architecture landscape.
- You manage a balanced outside-in perspective with our peers.
- With a closed collaboration with our business as well as with our technology partners (e.g. Service Now, Salesforce, SAP) you are a winning heart regarding change and communication management.

### YOUR PROFILE

- You have successfully completed a degree in (business) computer science, (business) engineering or an equivalent education with 3-5 years of professional experience with IT focus.
- A professional experience as a solution architect, software engineer or equivalent experience with direct exposure to complex IT implementation projects is a plus.
- You have excellent skills to reduce technical complexity into target group-oriented communication.
- You have demonstrable experience in the management and implementation of IT projects or in technical management, ideally also in an agile environment (e.g. SCRUM, SAFe).
- You have a profound knowledge on common architecture frameworks (e.g. TOGAF)

### ADDITIONAL INFORMATION

We embrace Diversity and Inclusion and are committed to providing equal opportunities to all of our applicants – regardless of race, gender, age, religion and beliefs, sexual orientation and gender identity, disability, cultural, ethnic or national origins. We would therefore kindly ask you to include only information and data in your documents which are relevant for the assessment of your application (e.g. curriculum vitae, salary expectations, relevant references and certificates) and encourage you to upload your CV without a picture.

If you have any questions, please contact our recruiter Aliya Celik every Tuesday between 2 p.m. and 3 p.m. am via the telephone number +49 176 37014514.
