

PROJECT MANAGER - FACTORY INVESTMENT (ALL GENDERS)

At Beiersdorf, we want to help people feel good about their skin – and our commitment goes far beyond caring for skin. For 140 years, we have developed innovative skin and body care products for well-known brands such as NIVEA, Eucerin, La Prairie, Hansaplast, and Labello. We act according to our purpose, WE CARE BEYOND SKIN, and take responsibility for our consumers, our employees, the environment and society.

Behind every brand, every product and every accomplishment are our more than 20,000 employees. It is for them that we live a culture of inclusion, respect and trust that is strongly aligned with our values CARE, COURAGE, SIMPLICITY and TRUST. We embrace diversity by valuing the uniqueness of each individual and being committed to equal opportunities for all.

YOUR TASKS

The Factory Investments Team is an International Team within Supply Chain Technology, which globally leads factory development and asset investment in Beiersdorf's production network. Our manufacturing network is going through a major transformation and dealing with an unprecedented investment volume in all regions.

The tasks include

- Handling strategic factory development projects, which are highly complex in nature and require broad interdepartmental stakeholder management.
- Lead the long-term site development and facilitate deployment of site investment plans in global organization.
- Work very closely with our factory, regional and global leadership to ensure fully integrated solution architecture.
- Promote strong collaboration across Manufacturing, Finance, Legal, Procurement, Quality, Safety, and other key areas in relation to CAPEX projects and strategy.
- Manage external partners providing engineering services and other related consultancy.
- Enable methodical fact-based decisions making.
- Manage multilayered Stakeholders across functions and regions in matrix organization.
- Serve as the central point of contact for all interested parties and evaluating project effectiveness and efficiency, while communicating project status to the appropriate stakeholders.
- Capture lessons learned and leverage opportunities for continuous improvement across organization.
- Ensure early project management methodology deployment including success criteria, timelines, estimate capital budgets and business case ownership.
- Scouting & benchmarking of industry trends / technologies

YOUR PROFILE

- Master's Degree in engineering /life science/ business administration with several years of proven track record in Supply Chain/Engineering Positions.

ADDITIONAL INFORMATION

At Beiersdorf, we embrace Diversity and aim to provide equal opportunities to all of our applicants – regardless of e.g. gender, sexual identity, nationality, ethnicity, religion or ideology, disability or age. We would therefore kindly ask you to include only information and data in your documents which are relevant for the assessment of your application (e.g. curriculum vitae with relevant references and certificates). For instance, please feel free to upload your CV without a picture.
